

ANDRY JAVIER PEREZ MENDOZA

SOFTWARE DEVELOPER

contacto@dreez.dev - dreez.dev – [LinkedIn](#) – [GitHub](#)

PROFESSIONAL PROFILE

Software developer with over 5 years of experience. Expert in Angular, FastAPI, NestJS, and Laravel. Focused on process automation, user experience, robust product development in B2B environments, and multi-tenant architecture.

WORK EXPERIENCE

Software Developer at INVERTROPOLI, C.A.

August 2025 - Present – Venezuela (On-site)

Industry: Automotive, wholesale - **Type:** Domestic, B2C, B2B

RESPONSIBILITIES

- Develop the backend for the organization's inventory app using AppSync (AWS).
- Develop the backend and backoffice of the GWM Driver application using Supabase, Powersync, and Angular.
- Creation and maintenance of custom modules in Odoo.

KEY ACHIEVEMENTS

- Implemented RabbitMQ with DynamoDB triggers to synchronize inventory app data with the company's local database.
- Implemented Powersync to improve the experience and data synchronization of GWM Driver, enabling offline-first usage.

Software Developer at SIETE - CX

February 2025 - July 2025 – Dominican Republic (Remote)

Industry: Quality evaluation and control services - **Type:** Startup, B2B

RESPONSIBILITIES

- Develop a B2B platform for the comprehensive management of Mystery Shopping processes.
- Integrate video uploads to Cloudflare Stream for optimization and streaming.
- Implement audio extraction and analysis with OpenAI Whisper and GPT-4 on evaluation videos.

KEY ACHIEVEMENTS

- Automated qualitative analysis with Whisper and GPT-4, reducing report processing time and increasing the accuracy of interview analysis.
- Developed a robust multi-tenant architecture enabling flexible system expansion and secure management of evaluators by region.

Software Developer at SIETE - DEEP

January 2024 - July 2024 – Dominican Republic (Remote)

Industry: Sales force - **Sector:** Pharmaceutical - **Type:** Startup, CRM, B2B

RESPONSIBILITIES

- Designed and developed Deep, a B2B CRM for the pharmaceutical industry, focused on sales force management and optimization.
- Implemented advanced features such as dynamic reports, integrated calendars, and analytics, improving business productivity.

KEY ACHIEVEMENTS

- Adapted Deep to meet the unique needs of the pharmaceutical sector, maximizing its impact on sales force management.

Software Developer at SNC PHARMA, C.A

March 2020 - November 2023 - Venezuela (On-site)

Industry: Pharmaceutical - **Type:** International

RESPONSIBILITIES

- Led the development and maintenance of web applications, optimizing key business processes.
- Implemented new technologies to improve productivity, efficiency, and team collaboration.

KEY ACHIEVEMENTS

- Developed essential digital solutions for critical areas such as Accounting, Pharmaceutical Sales, and Medical Assistance, improving management and performance.

SKILLS

Languages: JavaScript, TypeScript, Python, PHP, Dart, Kotlin.

Frontend: Angular, Astro, Tailwind.

Backend: FastAPI, NestJS, Laravel.

Mobile/Cross-platform: Flutter, Kotlin (KMP).

DevOps / Infrastructure: Docker, AWS, Cloudflare, Railway, Vercel.

Databases: PostgreSQL, MySQL, SQLite, MongoDB.

Other: WXT, Git, Metabase, Amplify, Supabase, Powersync, RabbitMQ.

EDUCATION

JavaScript Algorithms and Data Structures | **FreeCodeCamp (November 2024)** [View Credential](#)

Responsive Web Design | **FreeCodeCamp (October 2024)** [View Credential](#)

Master in Javascript, Angular and NodeJS | **Udemy (November 2022)** [View Credential](#)

Course in Laravel (API REST) and Angular | **Udemy (June 2022)**

Master in Python 3 | **Udemy (March 2022)** [View Credential](#)

LANGUAGES

Spanish – **Native**

English – **B1**
